

JOIN US FOR A **FIRESIDE CHAT**

Get real insights on your IAM program in a conversational setting. No sales pitches, no “death by PowerPoint,” just real talk and valuable guidance from our experts.

The Experience

Brief & Flexible

Up to 2 hours of open, interactive discussion.
Next steps can be taken in a follow-up, if desired.

In-Depth Exploration

Analyze your entire Identity posture across data, people, processes, and technology, looking forward.

Whiteboard-Centric

Visualize your challenges and solutions in real-time, collaboratively mapping out actionable steps.

Storytelling Insights

Learn about key Identity trends and possibilities through engaging stories.

The Outcome

You will have a holistic understanding of your entire Identity ecosystem in one place. Additionally you will have a clear understanding of the top things to address as next steps.

The Program

Source of Truth

Customer Identity (CIAM)

ITSM

Service Desk

Password Management

LifeCycle Management

Identity Governance (IGA)

Authentication

Access Management

Privileged Access (PAM)

Why
IDMWORKS

We've been in the Identity business for 20 years; we know IAM like the back of our hand. Every person on our team is a deep subject matter expert, we don't deploy junior account managers on our clients. We've been recognized by the likes of Sailpoint, CyberArk and Ping for the depth of our knowledge and the quality of our work.

The Fireside Chat program was born from our passion to help businesses build a robust identity program - we believe you would benefit greatly from a conversation with us.
